

Element H (Requirements)

... means not finished

Priorities:

1. Safe
 - a. This device is safe to use and has not caused any harm to any user...
2. User-Friendly
 - a. The device is easy to use with little to almost no instruction.
3. Precise
 - a. The device can measure the precise amount of water a user can inhale from the ruler that is on the front of the device.
4. Repeatability
 - a. A user can consistently change their endurance by simply twisting the device to control the output of the water. It can also endure multiple uses, the device just has to be cleaned at the end of the final use to ensure cleanliness.
5. Inexpensive
 - a. This device is affordable and does not require a lot of maintenance...
6. Accurate
 - a. The device accurately shows how strong a user's lungs are.

Steps to Achieve
