

PART B. Documentation and Analysis of Prior Solution Attempts

Previously, murals have been designed in schools around the county. Unfortunately, these murals have become outdated, both in aesthetics and in theme. The previous mural designed in Riverview Elementary School's cafeteria seems to describe the importance of reading, an unusual choice for a mural in a cafeteria. The colors have dulled over time as well. The cafeteria will be filled with new light by replacing this mural with a new, modern mural.
