

F

Design Viability Description	Connection to Design Requirement	Credible Evidence?
The solution is inexpensive	Design would cost the same or a little more than the traditional uniform.	A used dress is about 30-50 dollars plus a pair of khakis which prices vary
The solution is easy to make	It's just like making a gps dress but shorter.	
The solution keeps the tradition	The shirt is made out of the traditional GPS summer dress.	
The solution is reasonable.	Provides warmth, allows students to have an option and feel comfortable in their uniform.	"50% of the sophomore class said that they wanted an additional uniform option."
