

Problem Definition Statements

using the following template:

____[who]____ need(s) ____[what]____ because ____[why]____

Consider:

What is the problem or need?Blinds create noise that distracts

Who has the problem or need?Mr Blanchard

Why is it important to solve? It distracts him and his students

Clearly identify the stakeholder(s) Mr Blanchard is the stakeholder because he is always teaching

Some examples:

- I need a mode of transportation because I have to go to class.
- The school needs working clocks because students are constantly late to class.
- Medical professionals need better protective gear because they need to treat sick patients.
- Developing countries need clean water because people are dying from dehydration and disease.

Mr Blanchard needs something to hold his blinds togetherwrestl because it distracts him and the class when it makes noises.
