Details

The design allows up to 10 guitars to be hung on walls and does not take up much moving space.

Analysis

According to Acoustic Guitar, if “all you have to do is reach up and grab your guitar, you’re more likely to actually play it”(Acoustic Guitar). This shows that this design attempt is useful in both motivating people to prove their mental health and effective in easy and accessible storage.

Prior Design Attempt #2 - Double Stack Mobile Guitar Rack

.

Details

The design can hold up to almost 20 guitars and is very portable. You can move it around the room at ease

Analysis

This prior design may be unsuccessful due to the time it took to assemble the rack. Another issue is that it may take up a lot of space.
