

Element J Initial Template

Element J: Documentation of Evaluation

Stakeholder Evaluation #1

- Name of evaluator: Stakeholder #1
- Justification for how this evaluator is a stakeholder: they came to the design-a-thon(we can't tell who it is)
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.

-cleanest design

-nice use of solar panel

-great critical thinking skills

-very knowledgeable on the prototype

-couple of really good minds in this group

-prototype works

-20 points

Stakeholder Evaluation #2

- Name of evaluator: Stakeholder #2
- Justification for how this evaluator is a stakeholder:they came to the design-a-thon
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.

- Read a little too much

- Consideration of gravity

- Consider of how to put in window / built into design

- Thought of ways to reduce manual needs through programing

- Loved solar integration to charge battery

- 14 points

Stakeholder Evaluation #3

- Name of evaluator: Stakeholder #3
- Justification for how this evaluator is a stakeholder:they came to the design-a-thon

- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
 - Good Teamwork
 - Collaboration of Ideas
 - Solar was utilized as well as timers
 - Neat and Works
 - 20 Points

Field Expert Evaluation #1

- Name of evaluator: Stakeholder #4
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
 - they liked the design
 - great idea
 - great presentation
 - motor was cool
 - 20 points

Field Expert Evaluation #2

- Name of evaluator: Stakeholder #5
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
 - Made no comments on paper
 - 20 points

Field Expert Evaluation #3

- Name of evaluator: Stakeholder #6
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon

- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
 - Very Well Thought Out
 - Good Clean Concept
 - 20 Points

Field Expert Evaluation #4

- Name of evaluator: Stakeholder #7
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
 - Best / neatest design and only one with a usable solar panel
 - Has a timer
 - Very easy and a smooth design
 - 20 points

Field Expert Evaluation #5

- Name of evaluator: Stakeholder #8
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc
 - Use of gravity
 - Clean and good design
 - Plan was to program a auto switch for the motor
 - 18 points

Field Expert Evaluation #6

- Name of evaluator: Stakeholder #9
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
 - Great idea using gravity to help roll the shade down

- Only group with a solar panel
- LOVE SOLAR ENERGY
- 19 points

Field Expert Evaluation #7

- Name of evaluator: Stakeholder #10
 - Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):they came to the design-a-thon
 - Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.
-
- Good job accessing materials
 - Clean design
 - Creative use of solar panel
 - 19.5 points
