MyDesign Portfolio

Element J Initial Template

How to use this template

Students: If you make a copy of this template to edit for your record of expert evaluation, be sure to delete the instructions.

To earn a 5 on this element, you will need to collect project evaluations from 3 or more stakeholders and 3 or more demonstrably qualified field experts. Project evaluation includes providing feedback on the prototype, reviewing the testing results, providing feedback on the analysis of the testing results, and providing recommendations for improvement. Project evaluation should address 2 or more aspects of your design or engineering design process. Duplicate the evaluator template as needed if you have more evaluators than are listed in the template below.

Element J: Documentation of Evaluation

Stakeholder Evaluation #1 (at least 1)

- Name of evaluator: Mr. Doffermeyer
- Justification for how this evaluator is a **stakeholder**: Works in the WCHS greenhouse
- Feedback:
 - Research how mold travels through water
 - Add the hose connection to the tube
 - Bleach to maintain

Field Expert Evaluation #1 (at least 1)

- Name of evaluator: Ethan Collen
- Plant expert
- Feedbacks:
 - Clearance limits
 - Contact stakeholders, get a response

Name: _____

Date: _____

Class: _____

Synthesis of the Project External Evaluation

Summarize all of the evaluators' comments in a way that highlights meaningful trends with specifics mentioned. Answer the questions, "What does the external evaluation mean?" and "What are you taking away from the external evaluation?"

We need to do more research on mold flow through water, how to connect tube to hose, and how to use bleach to maintain the prototype.
