

MyDesign Portfolio

Element J: Documentation of Evaluation

Stakeholder Evaluation #1

Name of evaluator: Victoria

Justification for how this evaluator is a stakeholder: Went to our table and provided feedback

The document was a sheet with numbers to rate our design

Stakeholder Evaluation #2

Name of evaluator: Mr. Roberson

Justification for how this evaluator is a stakeholder: Provided Materials

We have no transcripts of conversation but we have our projects which is enough to show that he provided materials

Stakeholder Evaluation #3

Name of evaluator: Duke University

Justification for how this evaluator is a stakeholder: Provided us with criteria and our problem

We had a powerpoint presentation sent to us and narrated by the people who needed us to complete the project

Field Expert Evaluation #1

Name of evaluator: Javier

He works at Duke and he is one of the people who came in and helped us with our projects

Field Expert Evaluation #2

Name of evaluator: Emily

Came and saw our projects at the design-a-thon and judged them based on how it worked and the ease of use

Field Expert Evaluation #3

Name of evaluator: Lydia

Came and saw our projects at the design-a-thon and judged them based on how it worked and the functionality of it

Synthesis of the Project External Evaluation

The evaluators ratings and comments summed up that ours was good but it could use some programming because it's not very efficient if you have to move wires everytime you want it to move. The external evaluation means that someone that is not seeing your project everyday comes and sees it and gives you feedback on it. We are taking away from external evaluation that we need in order to improve our projects.
