# MyDesign Portfolio

## *Element J Initial Template*

### Element J: Documentation of Evaluation

#### Stakeholder Evaluation #1

- Name of evaluator: **Mr. Butler**
- Justification for how this evaluator is a stakeholder: **Mr. Butler, the engineer overseeing our project, is a stakeholder because his role is to make sure everything runs smoothly and the technical aspects are on track. He helps guide the team, solves any engineering problems that come up and makes important decisions that affect how the project moves forward. His input and decisions are crucial for the project's success.**
- Date /3/11/25: First draft presentation feedback and recommendations:
- Consider using an IV drip needle when managing the time of the water flow
- Consider the room temperature when working with water to prevent mold so that
- Consider the sizing, Making sure you have the right measurements
- 

#### Stakeholder Evaluation #2

- Name of evaluator: **Mrs. Greer**
- Justification for how this evaluator is a stakeholder: **Mrs. Greer, one of the teachers responsible for the plant and who works in the classroom, is a stakeholder because she directly interacts with the project on a daily basis. She helps manage the plant and provides valuable insight into how the project affects students and the classroom environment. Her input is important to ensure the project meets the needs of the students and aligns with the goals of the plant.**
- Feed back element C stakeholder input paper:
- She does not want to waste water
- Is insistent on no mold building up meaning we need to keep the temperature of the room to a sertend level
- Recommends the plant always stays but the window . Meaning that Our project needes to fit within the space of the window with out taking up to much space.

### Stakeholder Evaluation #3

- Name of evaluator:
- Justification for how this evaluator is a stakeholder:
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.

### Field Expert Evaluation #1

- Name of evaluator:
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.

### Field Expert Evaluation #2

- Name of evaluator:
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.

### Field Expert Evaluation #3

- Name of evaluator:
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project):
- Documentation of the project evaluation, which could include copies of emails, transcripts of conversations, filled out feedback forms, etc.

### Synthesis of the Project External Evaluation

Summarize all of the evaluators' comments in a way that highlights meaningful trends with specifics mentioned. Answer the questions, "What does the external evaluation mean?" and "What are you taking away from the external evaluation?"
