

Name: Calvin, Andrew, Dylan Date: 5/7/2024 Class: Engineering Period 3

Element J: Documentation of Evaluation

Stakeholder Evaluation #1

- Name of evaluator: Mr. O
- Justification for how this evaluator is a stakeholder: he is the recipient of the product

Classwork For Wed 5 17

Peter O'Farrell • May 17, 2023

The Year In Review Project is due next Monday. Seniors, I'd highly suggest getting it done by Friday the 19th just to have less on your plate over the weekend!
Please use class time to edit your work that has been shot to this point.
You can also write and reporter track that still needs to be done.

There will be no leaving the studio today.
Thanks guys. See you tomorrow.

Class comments

Stakeholder Evaluation #2

- Name of evaluator: Dr. Love
- Justification for how this evaluator is a stakeholder: organizer

Final Design-a-Thon Presentation with Prof. Love
then

Complete Work on Elements G, H, I & J

G - Construction of a Testable Prototype

H - Prototype Testing an Data Collection Plan

I - Testing, Data Collection, and Analysis

Stakeholder Evaluation #3

- Name of evaluator: Ms. Reuther
- Justification for how this evaluator is a stakeholder:supervisor

Today's Presentation [Inbox x](#)

Reuther, Joanne
to bcc: me

Thank you all for showing your professionalism as Engineer's during today's presentation. You were able to impress the audience with your presentations and hard work through the engineering design process.

Prof. Love will be coming back on Wednesday, Block 1, to hear Calvin, Andrew & Dylan present their work.

Field Expert Evaluation #1

- Name of evaluator: Mr. O
- Justification for how this evaluator is a demonstrably-qualified field expert (professionals who spend at least a portion of their time working in a field directly related to your project): one of the Design-A-Thon judges

Synthesis of the Project External Evaluation

The evaluators focused on the color of the design as a main point of change, as the lens cover is quite bulky and students may remove it. They suggested changing the color to a more distinguishable blue or orange. Other than that there were no complaints among the evaluators. This external evaluation helped us to focus on something we had skipped over, as earlier in the design process we were thinking of making it a brighter color but eventually decided on black to make it look better.
