Hi Chloe,
I noticed the new (blue!) wheels on the chariot! I assume these are the results of your class's work. Perhaps one or all of you can come to a Morning Meeting (during break) or an advisory (during X-Block) to explain how you determined the best upgrade for the chariot. Gracias vobis!!
Mr. B

Hi,
I forget what we said about the wheel size. Would you prefer a thicker tire or a skinner tire? Would you like the tire shape to be bigger or smaller than the one now?

Thanks
Molly Millman

Hi,
Thank you so much for meeting with us yesterday! We would like to see the chariot to start taking measurements and order new wheels asap! If possible can we have it up for Friday during D block?

I can reach out to maintenance if you would like just let me know who to reach out to.

Thank you
Molly Millman

Good Afternoon Mr Beretta,
Our group wanted to send along a video updating you with the chariot project. If you have any questions or concerns let us know!
Thanks,
Sophie
