Element C

Design Requirement #1 (HIGH Priority)

The bookends need to be small so they allow lots of room on the shelves.

Design Requirement #2 (HIGH Priority)

They need to be sturdy so they don't move when there is weight on them and don't let the books slip.

Design Requirement #3 (HIGH Priority)

They should be lightweight so they are easy to move but also effective.

Design Requirement #4 (LOW Priority)

They should be stylish, so people want to use them.

Design Requirement #5 (LOW Priority)

They should have a stick bottom so there is no slip
