Element B: Documentation and Analysis of Prior Design Attempts

Prior Design Attempt #1 - <insert name of prior design attempt #1>

Source

State the source of the information about this prior design attempt, which should be taken from any of the following credible source categories: peer-reviewed journals (check out your public library for free digital access to journals; here are some [free online journals and research databases](#)), professional organizations, government agencies, local and national newspapers, patents (here is a [patent search site for the United States Patent and Trademark Office](#)), and reputable vendors and manufacturers. Make sure to incorporate [in-text citations](#) in the details section below (i.e. don't just give a list at the end of the element or footnote).

From
<https://www.customizelighting.com/what-are-the-lighting-requirements-for-football-field/>

Details

So these are examples of the lights that we want on our football field.

Analysis

This is going to take a lot of resources. Such as money it would cost \$291.17 in the beginning to get the actual lights, equipment would cost about \$400 to start and then of course even approval from people higher than us. We are tryna shoot for at least 60 feet of metal lights.

Prior Design Attempt #2 - <insert name of prior design attempt #2>

Source

Class: _____

State the source of the information about this prior design attempt, which should be taken from any of the following credible source categories: peer-reviewed journals (check out your public library for free digital access to journals; here are some [free online journals and research databases](#)), professional organizations, government agencies, local and national newspapers, patents (here is a [patent search site for the United States Patent and Trademark Office](#)), and reputable vendors and manufacturers. Make sure to incorporate [in-text citations](#) in the details section below (i.e. don't just give a list at the end of the element or footnote).

Image

From: [40 Foot Trailer Mounted Mini Stadium Light Tower | Explosion Proof Lighting](#)

Details

This is a trailer light, maybe something to start off if we cannot get the right equipment. This cost between \$10,000 to \$50,000 dollars and that is really expensive and not in our budget. This would be very useful but not worth the cost.

Analysis

This is on the ground and not installed into the ground but can be a starter to what we are trying to build.

Prior Design Attempt #3 - <insert name of prior design attempt #3>

Class: _____

From: <https://www.ledlightingsupply.com/led-sports-lighting/football-stadium-lights>

Details

This is similar to the others, just a little bit smaller.

Analysis

The light will reduce electrical cost by 60% as it is powered with full LED. The span of the time the light is usable is up to about 100,000 + hours. The light produces about 28000 lumens and about 200 watts. The price for this product is starting at \$294.17.

Prior Design Attempt #4 - <insert name of prior design attempt #4>

Source

State the source of the information about this prior design attempt, which should be taken from any of the following credible source categories: peer-reviewed journals (check out your public library for free digital access to journals; here are some [free online journals and research databases](#)), professional organizations, government agencies, local and national newspapers, patents (here is a [patent search site for the United States Patent and Trademark Office](#)), and reputable vendors and manufacturers. Details

This is another example, just more simple and calm, rather than big lights that can possible be too bright.

Analysis

This is about the same production as the previous light. Just something less flashy. The light will reduce electrical cost by 60% as it is powered with full LED. The span of the time the light is usable is up to about 100,000 + hours. The light produces about 28000 lumens and about 200 watts. The price for this product is starting at \$294.17

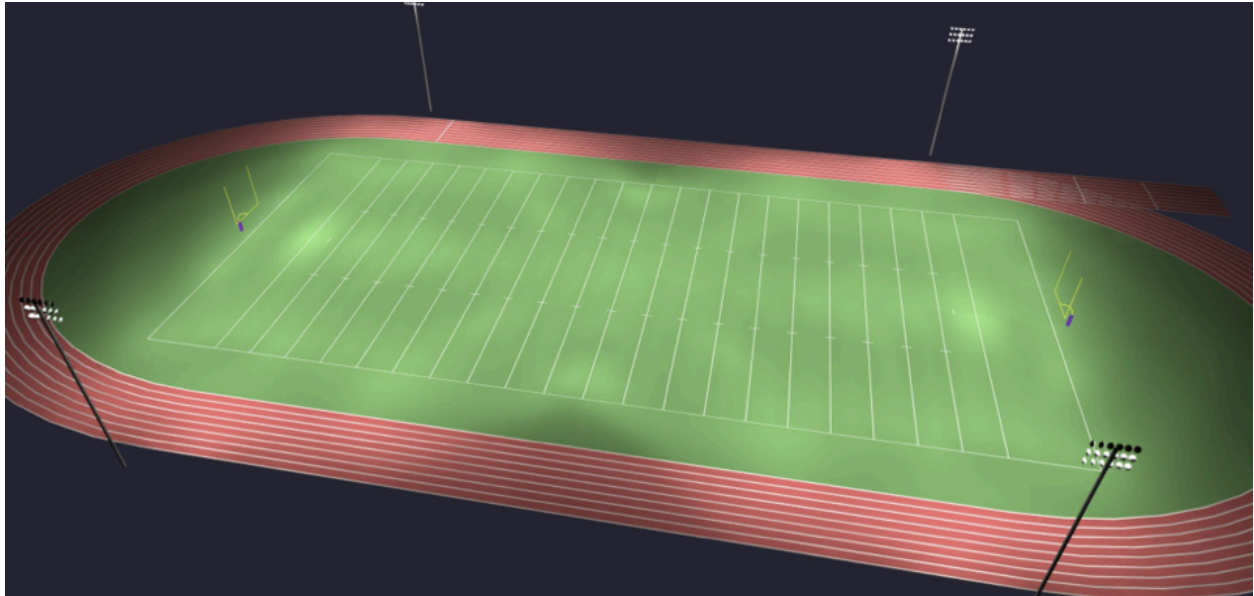

Prior Design Attempt #5 - <insert name of prior design attempt #5>*Source*

State the source of the information about this prior design attempt, which should be taken from any of the following credible source categories: peer-reviewed journals (check out your public library for free digital access to journals; here are some [free online journals and research databases](#)), professional organizations, government agencies, local and national newspapers, patents (here is a [patent search site for the United States Patent and Trademark Office](#)), and reputable vendors and manufacturers. Details

This is a great picture, it resembles our football field and four lights on different sides is what we are looking for.

Analysis

Football Field HID Lighting System 50 fc 4 poles 72 fixtures with Controls, This light is way more expensive than the previous lights shown because it takes more materials to complete. The starting cost is \$80,000.
