MyDesign Portfolio

Element B Initial Template

Element B: Documentation and Analysis of Current and Prior Design Attempts

Current or Prior Design Attempt #1 - **Raptor Technology**

	"SmartPass Digital Hall Pass System." Raptor Technologies, https://raptortech.com/protect-your-school/smartpass-digital-hall-pass-solution/. Accessed 20 May 2026.
<i>Image</i>	
<i>Details</i>	Very efficient and effective according to reviews.
<i>Analysis</i>	The best version of this design, the pro version, is very good at what it does. The only issue is the price. It's all strengths

Name: _____

Date: _____

Class: _____

	being able to do anything, it even uses AI to help the staff. But it has one major weakness, being that the Pro version is very expensive to implement within just one building.
--	--

Prior Design Attempt #2 - TPT

<i>Source</i>	"Bathroom Passes." Teachers Pay Teachers, Teachers Pay Teachers, www.teacherspayteachers.com/browse?search=bathroom%20pass . Accessed 20 May 2026.
<i>Image</i> Include at least one image of this prior design attempt. Make sure to cite all images. A website link is sufficient.	
<i>Details</i>	Lots of options.
<i>Analysis</i>	Provides a large number of options with multiple different types, including physical and virtual. The main benefit is the price.

Name: _____

Date: _____

Class: _____

	Most systems are very small scale, but are incredibly cheap, to the point where purchasing about 5 packages of these would cost under 100\$, and also be enough for one whole school. The biggest downside is that the amount of variety is inconsistent and there is an overall lack in quality compared to others.
--	--

Prior Design Attempt #3 - The Teacher Wife

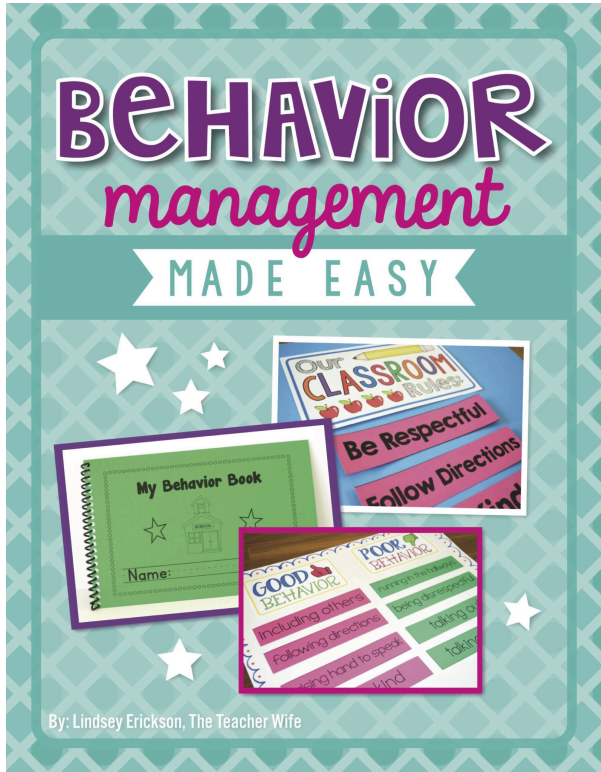

Source	
--------	--

Name: _____

Date: _____

Class: _____

Image	
Details	Very easy to use, to the point where it's more meant for students than teachers.
Analysis	The biggest reason why this was successful was that it was incredibly easy to use compared to other devices of its caliber. It is also pretty cheap. The biggest downside includes: Very simple and small range(requires multiple), and very inconsistent.

Prior Design Attempt #4 - <insert name of prior design attempt #4>

Name: _____

Date: _____

Class: _____

<i>Source</i> State the source of the information about this design. taken from any of the following credible source categories: peer-reviewed journals (check out your public library for free digital access to journals), professional organizations, government agencies, local and national newspapers, patents, and reputable vendors and manufacturers. Make sure to incorporate <u>in-text citations</u> in the details section below (i.e. don't just give a list at the end of the element or footnote).	
<i>Image</i> Include at least one image of this prior design attempt. Make sure to cite all images. A website link is sufficient.	
<i>Details</i> Include main details about this prior design attempt	
<i>Analysis</i>	

Name: _____

Date: _____

Class: _____

Provide evidence and explain what parts of this prior design attempt were unsuccessful at solving the defined problem and why, based on design requirements.

Prior Design Attempt #5 - <insert name of prior design attempt #5>

Source

State the source of the information about this design. taken from any of the following credible source categories: peer-reviewed journals (check out your public library for free digital access to journals), professional organizations, government agencies, local and national newspapers, patents, and reputable vendors and manufacturers.

Make sure to incorporate in-text citations in the details section below (i.e., don't just give a list at the end of the element or footnote).

Rubric

Element B: Documentation and Analysis of Prior Design Attempts						
	score = 5	score = 4	score = 3	score = 2	score = 1	score = 0
B1. Documentation of plausible prior attempts to solve the problem and/or related problems is drawn from _____.	a wide array of clearly identified and consistently-credible sources	a variety of clearly identified and consistently-credible sources	several—but not necessarily varied—clearly identified and generally-credible	a limited number of sources, some of which may not be clearly identified	only one or two sources that may not be clearly identified and/or credible	missing or minimal (a single source that is not clearly identified and/or credible)

Name: _____

Date: _____

Class: _____

			sources	and/or credible		
	score = 5	score = 4	score = 3	score = 2	score = 1	score = 0
B2. The analysis of past and current attempts to solve the problem — including both strengths and shortcomings — _____.	is consistently clear, detailed, and supported by relevant data	is clear, generally detailed, and supported by relevant data	is generally clear and contains some detail and relevant supporting data	is overly general and contains little detail and/or relevant supporting data	is vague and is missing any relevant details and/or relevant supporting data	cannot be inferred from information intended as analysis of past and/or current attempts to solve the problem
