

Name: _____

Date: _____

Class: _____

Design Viability Description	Connection to Design Requirement	Credible Evidence?
Waters plants well	Plants need to be watered in greenhouse	Seen similar designs work
Does not grow mold	Mold is bad for plants and humans	Mold doesn't grow on PVC
Includes a timer and a switch	Maintenance should be easy for Mr. Doffermeyer	Seen similar designs work
Bottom waters the plants	Plants should not be overwatered, and bottom watering solves the issue.	Suggested by Mr. Doffermeyer and confirmed with research online
